UNITED STATES IS WANTED AT HAGUE CONFERENCE

Labor War in Windy City Is Now Growing Extremely Critical

TERRORISM IS RAMPANT MANY PARTS OF CITY

Police Searching for Unexploded Bombs Believed to Have Been Placed Apartment.

SLAYER POLICEMEN IS HELD

Wife of John Miller Says Her Husband Confessed That He Drove Death Car.

(By Associated Press)

CHICAGO, May 17.—The police today searched for unexploded bombs believed to have been placed in a \$200,000 apartment building in north Chicago, which last night was damaged by a fire started, the police say, by terrorists, in connection with the so-called Chicago labor war.

Another development on which the authorities worked was a confession said by the police to have been obtained yesterday from Mrs. Margaret Miller, wife of John Miller, under arrest as the alleged driver in the "death car" from which shots were fired, killing two policemen early last Wednesday in the labor feud. The police connect the firing of the building with labor disorders through a man who warned two women in an adjoining building. "To hell with the Lauria award," he shouted as he attempted to kick one of the women. He is sought by the police.

MERGER WELL NOW SHOWING GAS AND OIL

Those Interested Highly Pleased Ore Showing and Prediction for Oil Is Made.

The indications for oil at the well of the Fish Lake Merger Oil company were never better," remarked Chas. W. Taylor, the president and general manager. "We are now down to a depth of 1123 feet and there is a strong gas pressure, with signs of oil, and in view of the fact that we are now making from 25 to 30 feet a day, having entered a softer formation, leads us to believe that we are going to prove up Fish Lake as an oil region in big time."

Mr. Taylor was accompanied on his visit to the seat of operations yesterday by R. W. Cattermole, chief engineer for the Tonopah & Goldfield Railroad company, and Sol Camp, Goldfield mining man, and both were highly impressed over the oil possibilities.

BUTLER THEATRE

—TODAY—

"THEY SHALL PAY"

—IN—

Lottie Pickford

A drama disclosing three episodes in a girl's life. Charming sister of Mary, she has a fetching personality all her own.—ALSO

Two reel Sunshine comedy, "Business Is Business."

Tomorrow, David Powell and Anna Forest, in a charming comedy-drama, "Love's Boomerang."

NOTED ARCHITECT OF CHICAGO SAYS NO SUCH THING AS FIREPROOF BUILDING EVER KNOWN

(By Associated Press)

CHICAGO, May 17.—Varying suggestions relative to future skyscraper buildings offered by Chicago architects as the result of fire damage here to the Chicago, Burlington and Quincy railroad building, one of the type known as fireproof, agreed in stressing fire prevention more than fire proofing. F. E. Davidson, a leading architect, went so far as to assert that "the fireproof building does not exist, nor can it be constructed." Richard E. Schmidt, president of the Chicago Chapter of the National Fire Prevention Association, while asserting that the fire proofing of the Burlington building did halt the spread of fire to other buildings, and maintaining that incombustible floors and fireproof furniture would have made interior damage insignificant, urged limitation of the height of buildings as of first importance. He was supported in the latter position by Allen B. Pond, who said "a great many of the most thoughtful architects build very high buildings because they have to, to hold their clients, but they do not approve."

"There appears to be no possibility," said Mr. Schmidt, "of building pleasing, durable facades of reasonably priced material which will not suffer if attacked in the same manner that the Burlington building was." He contended, on the other hand, that had the Burlington building been lower, the flames and heat from the original fire would have passed over it."

ANNIVERSARY DEATH OF HAY IS OBSERVED

Was First Chief Justice of the United States Supreme Court and Universally Liked.

(By Associated Press)

BEDFORD, N. Y., May 17.—Today is the 93d anniversary of the death of John Hay, native of New York City, governor of New York, a leader of the revolting colonists and first chief justice of the United States supreme court. Hay was also President Washington's special envoy to Great Britain in 1794, and his name has been given to a treaty which he effected at that time, and which is credited with having prevented an impending war with England. It was ratified over extreme opposition; was termed by democrats "complete surrender to England," and by Lord Sheffield of England, on the other hand, "that most impolitic treaty of 1794, when Lord Grenville was so perfectly duped by Hay."

PINCHOT WILL BE NOMINATED FOR GOVERNOR

On Face of Unofficial Returns He Seems to Have Carried the Republican Contest.

(By Associated Press)

PHILADELPHIA, May 17.—Gifford Pinchot "has apparently won the republican nomination for governor on the face of unofficial returns," W. Harry Baker, secretary of the state republican committee, declared today in a statement. "Unless Allegheny county gives a larger majority than my advice indicate, then there is no doubt Pinchot has carried the state," the statement said.

SENATOR CAMERON OF ARIZONA VINDICATED

(By Associated Press)

PHOENIX, May 17.—Federal Judge Van Fleet sustained the demurrer of United States Senator Cameron republican of Arizona, to an indictment charging the senator with perjury. The incident was ordered dismissed.

HARDING TO MEET MAGNATES OF STEEL

(By Associated Press)

WASHINGTON, May 17.—Invitations have been issued for a large number of steel manufacturers of the country to meet President Harding tomorrow night at a dinner conference, it was said at the White House.

ONE THOUSAND CONVICTS ARE WAGING FIGHT

Prison Farm Inundated as Result of Break in Levee at Bobs Bayou, Near Angola.

(By Associated Press)

BATON ROUGE, May 17.—A break in the levee at Bobs Bayou today, flooded thousands of acres in the state prison farm at Angola, where over a thousand convicts are camped. The main buildings of the penitentiary of threatened. Boats are being rushed to the prison for rescue work.

BURCH TRIAL NOW NEARING FINAL CLOSE

Prosecution and Defense Rest and Arguments of Counsel Are Started Today.

(By Associated Press)

LOS ANGELES, May 17.—Both sides rested today in the trial of Arthur C. Burch, charged with the murder of J. Belton Kennedy, and Deputy District Attorney Keyes began his closing argument for the prosecution.

Arthur C. Burch was jointly indicted with Mrs. Madeline Obenchain, both being charged with the murder of J. Belton Kennedy, local broker, at Kennedy's summer cottage at Beverly Glen, near here, the night of August 5, last.

Separate trials have been granted and each defendant has been tried once, each jury disagreeing.

The prosecution's theory was that Burch, being infatuated with Mrs. Obenchain, a former college acquaintance, shot Kennedy, at her instigation, after Kennedy, with whom she was in love, had refused to marry her.

MT. VESUVIUS NOW ERUPTING BY WHOLESALE

Lava Pouring Forth With Great Clouds of Dense Vapor Over a Tremendous Area.

WHOLE COUNTRY IS LIGHTED

Head of Royal Observatory of Vesuvius Assures Population No Danger Near.

(By Associated Press)

NAPLES, May 17.—The volcano Vesuvius is in eruption with renewed violence, emitting large quantities of lava and clouds of dense vapor. The sky over a wide area is lighted up nightly with varicolored rays from the volcano piercing clouds which hang over the summit. Professor Malladra, head of the royal observatory of Vesuvius, has reassured the population, declaring the present eruption will not endanger surrounding territory.

MINERALOGISTS MUCH PLEASED WITH TONOPAH

Will Spend Several Days Looking Over Various Sections of Southern Nevada.

Dr. A. S. Eskle, professor of mineralogy of the University of California, M. Vonsen, a mineralogist of Petaluma, and John Melhase, geologist for the Southern Pacific company, left this morning for Manhattan, where they will look over that section of the country. They spent yesterday at Alum where they made an examination of the property of the Western Chemicals Co., Inc., later proceeding to Caprite where an investigation of the paint mine owned by Ellsworth Oldt and associates, was made. Mr. Melhase stated that this barite mine was the best he had ever encountered.

"I am especially interested in finding a deposit of silica," remarked Mr. Melhase this morning. "You would be surprised at the number of inquiries regarding rare mineral deposits that are directed to my office of the Southern Pacific company, but silica seems to be in the lead. Deposits of this nature are exceedingly rare, and especially so where they are within reasonable reach of the railway."

It was Mr. Melhase that was responsible for the many sales of natural soap deposits that have been made during the past two years at Shoshone, Inyo County, California. As representative of the Standard Oil company he purchased a number of deposits and development and production has since followed on a large scale.

Mr. Melhase states that southern Nevada possesses the greatest attractions to be found anywhere in the mining regions and is confident of finding something worth while.

EGYPT DIVIDED POLITICALLY OVER WHO SHALL FRAME CONSTITUTION UNDER THE NEW REGIME

(By Associated Press)

CARRO, April 15.—(By Mail.)—The framing of a constitution (constitution) for Egypt made necessary by the lifting of the British protectorate, has become a paramount feature of Egyptian politics. The question as to who shall frame the constitution, which has been under discussion in the native press ever since the first royal levee was held by King Fuad at Aldin Palace, has divided the country politically into two diametrically opposed camps.

The nationalists, who are mostly adherents of Zaghloul Pasha have been demanding that the constitution be drawn up by a national assembly elected by the people. The ministerialists, who are supporting the government of Premier Eswat Pasha, and who have just won the day, have been in favor of appointing a special commission for the task.

The commission already appointed is composed of 31 members under the presidency of Rushdy Pasha, former prime minister. It is to draw up within four months a project for a constitution which will be thrashed out by the Egyptian parliament which will have the right to amend it, except in that which concerns the prerogatives of the throne.

The government's project calls for a parliament to consist of two chambers. All the members of the lower house and half the members of the senate are to be elected by popular vote; the other half of the senate to be appointed by the executive.

CHINESE LEAVE TOKIO WITHOUT NOTIFICATION

Legation Departs by Refusal of Japanese Banks to Advance Money to Students.

(By Associated Press)

TOKIO, May 17.—The entire staff of the Chinese legation left Tokio today without notifying the foreign office, declaring their departure was due to failure of Japanese banks to supply the refusal of the Japanese banks to funds for Chinese students here and make further advances on the ground of lack of security.

SYRIA PROBLEM NEARLY SOLVED U. S.-FRANCE

American Government's Approval Is Subject to Certain Conditions to be Met.

(By Associated Press)

GENEVA, May 17.—The United States and France are about to reach an agreement on the French mandate for Syria, according to information reaching the secretariat of the league of nations, and it is understood the American government's approval is subject to certain conditions which will apparently be met.

ARMISTICE SLAYERS SEEKING PARDONS

(By Associated Press)

SEATTLE, May 17.—A joint affidavit setting forth the belief of two jurors in the case that seven alleged industrial workers of the World, were convicted of second degree murder in connection with the slaying of Warren O. Grimm, during the Armistice Day parade at Centralia, Wash., in 1919, were innocent, may be made the basis of an appeal for pardon for the seven men, it was announced at the legal bureau of the Seattle labor council.

RICH MINERAL FIND IS MADE CAMP TAYLOR

Ore Shows Assay Values of Twenty-Four Hundred Dollars Gold and Silver.

(By Associated Press)

Ore carrying over \$1000 in gold and 1400 ounces in silver a ton was exhibited Tuesday night in Tonopah. This remarkably rich ore came from the Storm Cloud property at Taylor, five miles south of Golden Arrow, and while the streak is small it is indicative that the new camp is going to be heard from as a gold producing center. The find was made on the hanging wall of the vein and in the shaft at a depth of about 35 feet, and caused no little excitement among mining men as a result of its richness.

The entire width of the shaft is showing a body of ore of a highly commercial grade, and will probably mill better than \$100 a ton. There is showing a 12-inch streak that displays assay values of 700 ounces and better, and as depth is secured the values are showing an increase while the orebody is also going in size.

LARGEST CLASS HISTORY U. C. IS GRADUATED

Fifteen Hundred and Nineteen Diplomas Are Awarded to Men and Women.

(By Associated Press)

BERKELEY, May 17.—The largest graduating class in the history of the University of California, 1519 men and women, received diplomas today. This represents an increase of 20 per cent over last year. President David P. Barrows, who resigned yesterday, addressed the students. The total diplomas numbered 1963, including postgraduates.

PEACE COMMITTEE OF IRELAND HAS FAILED

(By Associated Press)

DUBLIN, May 17.—The Dail Eireish peace committee which has been trying to find a basis for unity of the Irish factions, formally reported today to the Dail of a breakdown of negotiations.

OREGON TOWN BARS WEARING DISGUISES

(By Associated Press)

MEDFORD, May 17.—An ordinance, copied after one recently passed in Sacramento, barring all masks and disguises being worn on the streets of Medford, was passed unanimously last night by the city council.

MAY POSSIBLY BE INDUCED TO PARTICIPATE

Reply of This Country Sympathetic, But No Indication of an Acceptance.

RUSSIANS ACCEPT PROPOSALS

Modification of Plans Wanted by Russians Are Being Discussed Today.

(By Associated Press)

WASHINGTON, May 17.—The American reply, it was explained, was sympathetic in character, but not an acceptance, although apparently construed at Genoa as forecasting participation by the United States. This, it was said, was the only explanation that could be assigned in official quarters here to the confusion in European capitals which has followed the American declaration of the formal invitation. French sources at Genoa, prior to the issuance by the economic conference of an invitation to the United States to participate in the Hague meeting, sent a "feeler" to develop the American attitude toward such participation, it was learned today.

GENOA, May 17.—Russia has accepted the proposals of the powers for a meeting at the Hague to discuss the Russian situation, it was announced today. In accepting, the Russians proposed certain modifications in the plan, which will be discussed at a meeting during the afternoon.

LOST HEIRESS DISCOVERED BY IRATE FATHER

Secretly Married in January and Husband Will be Prosecuted for Bigamy.

(By Associated Press)

ARDMORE, Okla., May 17.—Ludie Kinney, accompanied by his young bride, formerly Miss Opal Reesart, the missing Ardmore heiress, is at an isolated ranch in New Mexico. His arrest on a bigamy charge, sworn to by the girl's father, is momentarily expected. Sheriff London said here. The couple disappeared after being secretly married on January 1. The search has been pressed since by U. T. Reesart, widely known oil operator and father of the girl, who brought suit against J. J. Kinney, Ludie's brother, charging the two had conspired to obtain Miss Reesart's property through marriage.

ALMOND ASSOCIATION DECIDE TO DISBAND

(By Associated Press)

SAN FRANCISCO, May 17.—The question whether the California Almond Growers association shall liquidate and close up business as a result of the dearth of selling contracts, or shall campaign for more contracts as suggested by the state department of agriculture, is up for decision today at a meeting of the association's board of directors.
